Pour Point	D-97	-20

Exceeds All GL Classifications

LUCAS 75/90 Synthetic Gear Oil is a pure-synthetic, non-foaming, super slick, long lasting lubricant designed especially for heavy-duty or high performance applications where other gear lubricants just aren't good enough.

Contains a special additive package that cushions gears and resists "squeezing out" under extreme pressure situations where other gear lubricants just don't hold up.

Specially designed to stand up to high temperatures without losing its lubricity.

Excellent for use in limited slip differentials.
