

LUCAS
- CATTLE COMPANY -

SPRING BULL SALE
- APRIL 12 -

85 SIMANGUS AND SIMMENTAL BULLS - 45 LUCAS CATTLE COMPANY BRED HEIFERS
1:00 PM AT LUCAS CATTLE COMPANY IN CROSS TIMBERS, MISSOURI

Charlotte and I would like to welcome you to our 2025 Spring Performance Bull & Female Online Sale. Lucas Cattle Company has been in the Simmental cattle business for almost 3 decades and has had private treaty bull sales for 24 years and now look forward to offering the same high-quality set of cattle to you online via DVAuction. We are very proud of the powerful Simmental and SimAngus bulls and commercial bred females that we are presenting to you for your consideration. We have also decided to expand our offering to include seedstock heifers. We are going to offer the 'Elite Heifer Showcase' where we will offer the opportunity to select choice of a group of 7 highly selected heifers.

Lucas Cattle Company continues to ratchet up our genomic efforts by establishing a relationship with Allied Genetic Resources to expand our embryo transfer program along with the selective addition of some of the most powerful cow families in the Simmental breed. These include the breed changing WS MS SUGAR C4 and SSF BLK LOUISE Y534 along with recently adding ADV MS Genesis J1017 and some additional young donors. It has also been a very somber year for Lucas Cattle Company as we have lost WS MS SUGAR C4 recently, and SSF BLK LOUISE Y534 in the fall of 2024.

Both Sugar and Louise were very productive while at Lucas Cattle Company and while we will miss their continued direct contribution to our operation, we have been blessed to produce many offspring from these two cornerstone females and will continue to produce more for the next season or two. These two foundation females have made a significant impact to the direction and trajectory of Lucas Cattle Company and their impact will be felt for years to come. We are committed to make significant enhancements in our genetic cow power to continue the Sugar and Louise legacies to serve commercial, purebred and seedstock cattlemen. We look forward to being a sought-after partner in the Simmental cattle business to help our customers be the most successful they can be with their operations.

We sincerely thank our crew at Lucas Cattle Company for making our operation successful. Running a high impact seedstock operation has a lot of moving pieces and requires a tremendous amount of organization and attention to detail. Jeff, Holly, Cleo, Jonathan and Junior champion our efforts and their hard work is very much appreciated.

If you are one of our past private treaty sale customers, then welcome back and if this is your first visit to Lucas Cattle Company via our online sale then welcome. If you have any questions, please feel free to contact our team.

Welcome to Lucas Cattle Company,
Forrest Lucas

Forrest & Charlotte Lucas - Owner

SUGAR

The impact **SUGAR** made on our operation in the short time we have owned her, helped revive the excitement for breeding superior cattle with all the necessary traits to push us forward in an extremely, competitive industry. The daughters we've purchased and the calves we have raised so far, will continue her legacy, passing on her superior traits to the next generation. Additionally, the embryos stored as part of our breeding program ensure that her genetic impact will reach even further, helping shape the future of the Simmental breed for years to come. No other female in the rich history of Simmental has made a greater impact on the breed.

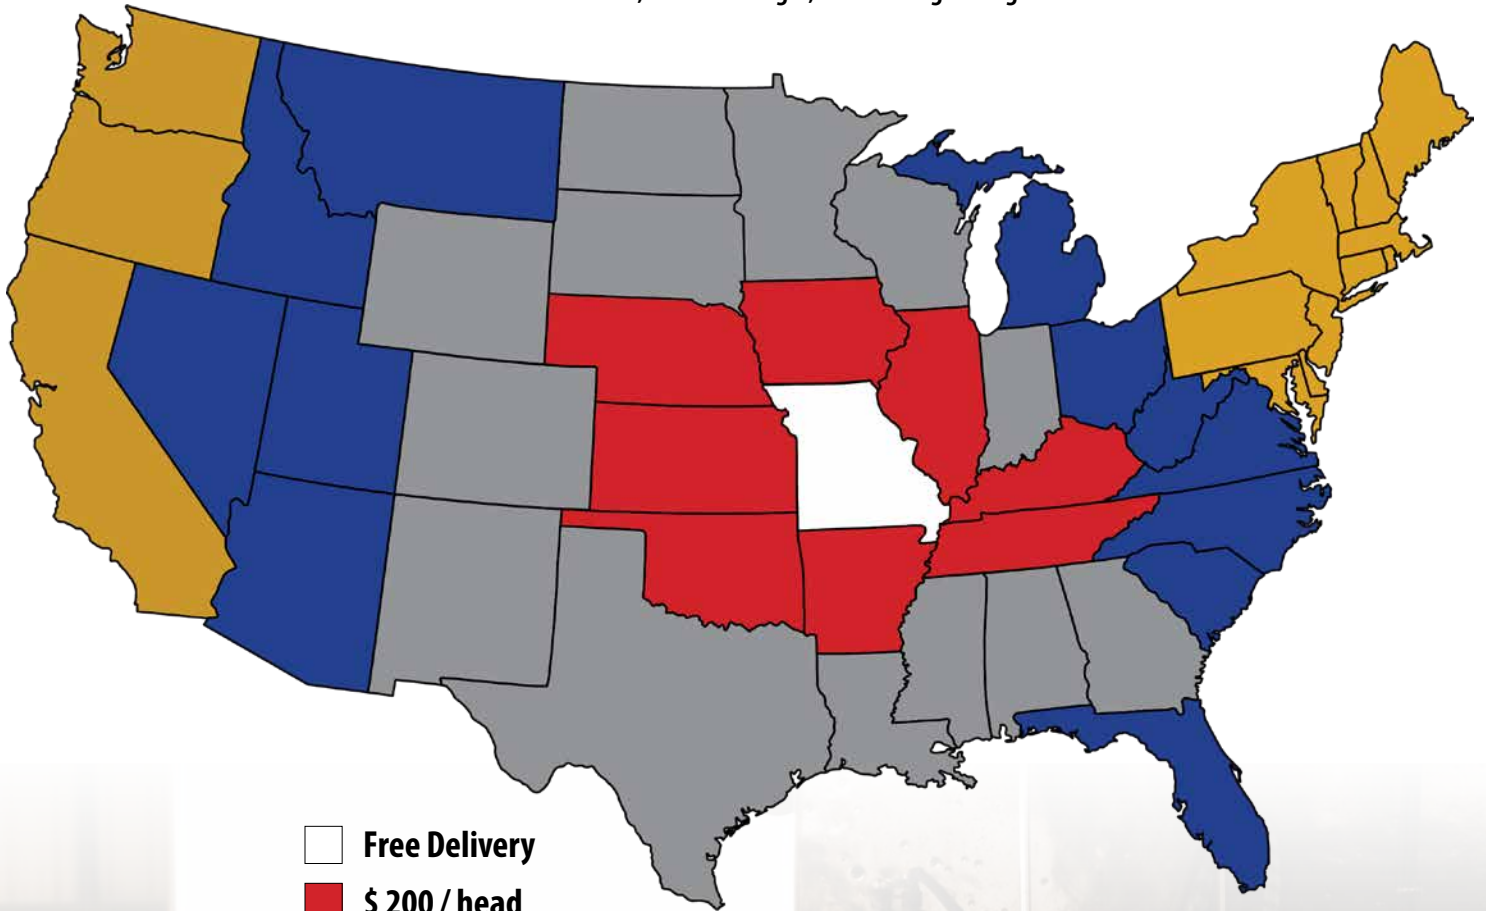

YOU WILL BE MISSED

REGISTRATION AND UPDATED EPDs.

All cattle will be registered in the American Simmental Association. All EPDs are the most current BOLT at the time of printing conducted by IGS and the American Simmental Association. Please note that EPDs may change from the time the sale catalog is printed until registration papers are transferred.

BREEDING GUARANTEE.

We stand behind all of our bulls and want you to be satisfied, so let us know as soon as possible if there are any problems. Scrotal measurements are actual (not adjusted) as reported at the time of fertility exam, and will be listed on the supplement sheet on sale day. All of our bulls have passed a fertility soundness exam unless indicated on the sale block. All bulls are guaranteed breeding sound. Come with a standard 90 day breeding season guarantee at the onset of breeding season.

ANNOUNCEMENTS.

Announcements made sale day take precedence over printed material in the sale book or other printed material associated with the sale.

LIABILITY.

Owners, their agents, sales management, or any of the sale staff will not be held responsible for any personal injury, loss or accident while attending this sale.

CONDITIONS OF SALE.

All animals will be sold in accordance with suggested guidelines of the American Simmental Association. Unless other conditions are stated in this book.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

FROM THE SALE MANAGER

Welcome to the 2025 Spring Bull Sale at Lucas Cattle Company in Cross Timbers, MO. Optimism in our country and in the beef business continues to grow in 2025. Cattle producers are seeing demand for all classes of cattle at all time highs. One can hope these fruitful times are here to stay for years to come in the business.

Lucas Cattle Company has invested and worked tirelessly in delivering the best Sim influenced genetics to the beef business. Their intense embryo transfer program is paying dividends in what is easily the best offering of Lucas bulls to date. Study your pedigrees closely and you will find a large offering of bulls from the most influential dams the Simmental breed has to offer. New to the 2025 offering is the chance at some registered open females which come from the heart of Lucas Cattle Company embryo transfer program. Each female has the makings of a front-end donor and will no doubt have the brightest futures ahead of them.

If you have not taken the time to make the trip to Cross Timbers now would be as good as time as any. The crew would like nothing more than to earn your business as a trusted seedstock provider. The vast operation is rooted in the commercial beef business and the cattle are born bred and developed on fescue to best serve their fescue belt customers.

As always, if we can be any assistance to you, please do not hesitate in reaching out to us about this powerful offering of genetics. If you can not be with us on sale day, make sure to catch the sale of DVAuction.com.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

CLARITY IS CASH

\$20+
MORE PER
CARCASS

74lb.
LIGHTER COWS

Today's industry pays big for heavy fat steers, but your pocketbook demands smaller cows. What to do?

The answer is clear, dependable data and the courage to bypass traditional straightbreeding.

Simmental-influenced cows are an average **74 lb. lighter** at maturity than Angus-sired counterparts.^a

Meanwhile, packers pay **\$20 to \$34 more** for SimAngus™ and Simmental-sired steers than English-sired calves.^b

Finally, raise efficient cows and high-performance calves. The proof is in the data – and the cash.

STAND STRONG
SIMMENTAL

406-587-4531 • simmental.org

^aUSMARC, Zimmerman, M., et al., "Breed and heterotic effects for mature weight in beef cattle," *J. of Anim. Sci.*, Vol. 99, 2021. Adjusted for sire sampling, Angus was the heaviest at maturity among the 16 breeds evaluated. Solutions are deviations from Angus. YW EPDs were extracted from genetic evaluations conducted in 2019. Estimate of MWT differences at 6 years of age. The study considered 108,857 weight records from 5,156 crossbred cows sired by 787 bulls. ^bEffect of sire breed group on carcass value of feedlot cattle harvested through Tri-County Steer Carcass Futurity Cooperative, Lewis, Iowa, 2002 to 2018. Odde, K. & King, M. (March 2021). Kansas State University. Relationships Among Sire-Breed Group, Calf Sex and Year Group on Carcass Traits. Breeds represented in the English-sired group: Angus, Red Angus, South Devon, Hereford and Shorthorn.

HIGH-PERFORMANCE HEIFERS - CHOICE

What an opportunity to obtain some of the very best genetics out of the most prolific donors the Simmental breed has to offer. We are offering our BEST open heifers who comes from the likes of C4, 18E, Y534 and many more. These females will no doubt combine the figures and phenotype to serve as cornerstone breeding pieces for their new owners. We feel these front-end females all are worthy of embryo production and when we started our venture in intensifying our embryo transform program our vision was to make genetics of this caliber!

Selling choice of three embryo packages out of the great WS Sugar C4. Sugar needs no introduction to the Simmental breed she garnered a purchase price of over \$200,000 and is on the bottom side of some of the most dominant Simmental bulls in recent memory. No other female has had as much impact as Sugar in the rich history of the Simmental breed. We recently lost Sugar and her embryo inventory is just over 100 eggs. This will be one of few opportunities to purchase direct progeny from Sugar. We are guaranteeing one successful pregnancy in each of the packages. The matings range from both purebred and Simangus cattle and with Sugar proven track record will be safe bets to be have a big-time impact.

LUCAS CATTLE COMPANY COMMERCIAL BRED HEIFERS

40 COMMERCIAL FALL CALVING BRED HEIFERS

Black hided, ranch raised Lucas bred heifers for multiple generations. Females will be sorted into groups of like kind and estimated calving date. AI bred females will be due mid-September, and natural service females will be due early October to late November. Look for more information closer to the sale.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$ indexes, visit: www.simmental.org

LUCAS

PERFORMANCE HORSES

A TRADITION OF EXCELLENCE.

Following in the tradition of Lucas Oil Products and Lucas Cattle Company, Forrest and Charlotte Lucas are proud to announce Lucas Performance Horses.

Forrest and Charlotte Lucas are not strangers to excellence. They brought the nation some of the finest oil products on the market. Over the last 25 years, the Lucas family and Lucas Cattle Company have also curated a large and successful herd of Simangus and Simmental Cattle. With these same goals in mind, Lucas Performance Horses is committed to breeding high quality performance horses for the cutting, reined cow horse, and ranch horse markets.

THE BEST TOOLS IN MY SHOP

People are keeping their cars longer than ever. They want those older cars to run smooth and strong, despite their age. Lucas Oil Products are created to solve or prevent common mechanical problems in all vehicles, meaning older cars can run like new.

Power and efficiency for the long road ahead.
