

TECHNICAL DATA SHEET

EXTREME DUTY CONTACT CLEANER

PRODUCT # 10905

Lucas Oil Extreme Duty Contact Cleaner's high pressure spray contains a unique blend of solvents and cleaning agents designed to blast away powder residue, grease, oil and other debris from firearm actions, slides, barrels and parts.

Our product is safe on your firearm's metal finishes and will not harm polymers subjected to incidental contact. This unique formula effectively displaces water, which is great if you are caught outside in a rain or snow storm.

Our product leaves zero residue, and is quick drying. It is ideal for final degreasing of firearms prior to bluing, Parkerizing or spray finish applications.

Lucas Oil Extreme Duty Contact Cleaner is non-chlorinated, CFC free and VOC compliant. Be careful when using around plastic as some plastics may be incompatible with the fluid. Please see instructions for use on the back of the product label.
