

LUCAS - CATTLE COMPANY -

FALL BULL SALE
- **OCTOBER 4** -

119 SIMANGUS AND SIMMENTAL BULLS - 5 OPEN HEIFERS - 41 LUCAS CATTLE COMPANY BRED HEIFERS
1:00 PM AT LUCAS CATTLE COMPANY IN CROSS TIMBERS, MISSOURI

WELCOME

This fall, Charlotte and I welcome you to Lucas Cattle Company with full hearts and a deep sense of gratitude. The cattle in this offering represent the very best of our program – powerful, performance-driven bulls and females, each backed by the kind of donor strength that defines our breeding philosophy. These are the progeny of cows like WS MS SUGAR C4, SSF BLK LOUISE Y534, ADV MISS GENESIS J1017, and HOOKS EVITA 18E whose influence continues to shape the future of our herd. Though we lost both Sugar and Louise in recent seasons, their legacy is alive and thriving in this sale.

This year also carries a much heavier note. We mourn the passing of Forrest Lucas, whose vision and values built the foundation of Lucas Cattle Company. Forrest believed in doing things right – from the ground up – and he poured his heart into this land, these cattle, and the people who make it all work. His absence is deeply felt.

As Marty Ropp, CEO Allied Genetic Resources, shared:

“I was at Lucas Cattle mid-week, and I have to say – it was the best I’ve ever seen things there. The cattle, the land, the people... it all reflected the kind of excellence Forrest believed in and built toward every day. He would have absolutely loved seeing the calf crop sell this fall.”

We move forward with that same spirit – committed to integrity, performance, and the kind of customer relationships that last. Whether you’re a longtime partner or joining us for the first time, we’re honored to have you with us.

Warm regards,

Jamie Devney

President, Lucas Cattle Company & Lucas Oil Speedway

IN MEMORY OF FORREST LUCAS

Forrest Lucas's story began in the heartland of Indiana, where grit, humility, and hard work were not just values—they were survival. Raised on a small farm, Forrest understood from an early age the weight of responsibility and the quiet pride that comes from caring for land and livestock. That foundation shaped a life of extraordinary achievement, marked not by ego, but by purpose.

His journey led him to Missouri, where he and his wife and lifelong partner, Charlotte, built Lucas Cattle Company into one of the most respected seedstock operations in the country. With over 16,000 acres in Cross Timbers, Forrest didn't just raise cattle—he raised the bar. Under his leadership, LCC became home to the largest registered Simmental herd in the United States, known for combining elite genetics with real-world performance. Forrest believed that cattle should work for the producer, not the other way around. His breeding philosophy was grounded in practicality, profitability, and long-term sustainability. But Forrest's vision extended far beyond the pasture. In 2011, he and Charlotte founded Protect The Harvest, a nonprofit born out of a fierce battle to defend Missouri's agricultural community from radical threats to animal agriculture. Forrest saw clearly what others missed: that rural America was under siege, and someone had to stand up. His rallying cry—"Someone's got to fight this because it's the right thing to do!"—became the backbone of a national movement. Protect The Harvest, which concluded its operations in October 2024, continues to uphold its legacy of a powerful voice for farmers, ranchers, and landowners, advocating for property rights, food security, and the preservation of rural values.

Together, Forrest and Charlotte championed causes that fed both body and spirit. Their support of Drive to Feed Kids and Hogs for Hunger helped deliver over 11 million meals to food-insecure Missourians, with a focus on protein-rich options that reflect Forrest's belief that no American should go hungry. In April 2024, their contributions were formally recognized with induction into the Missouri Agriculture Hall of Fame—a testament to their tireless advocacy, philanthropic leadership, and unwavering commitment to agriculture.

Forrest was a builder. He built businesses, communities, and movements. He built herds that changed the industry and relationships that changed lives. He built a legacy that will endure in every calf born at Lucas Cattle Company, in every rancher who stands taller because Forrest stood beside them, and in every voice that continues to speak up for agriculture.

He was a man of conviction, generosity, and grit. He believed in the power of hard work, the dignity of rural life, and the promise of American agriculture. And he believed in Charlotte—not just as his wife, but as his partner in every endeavor, every battle, and every triumph.

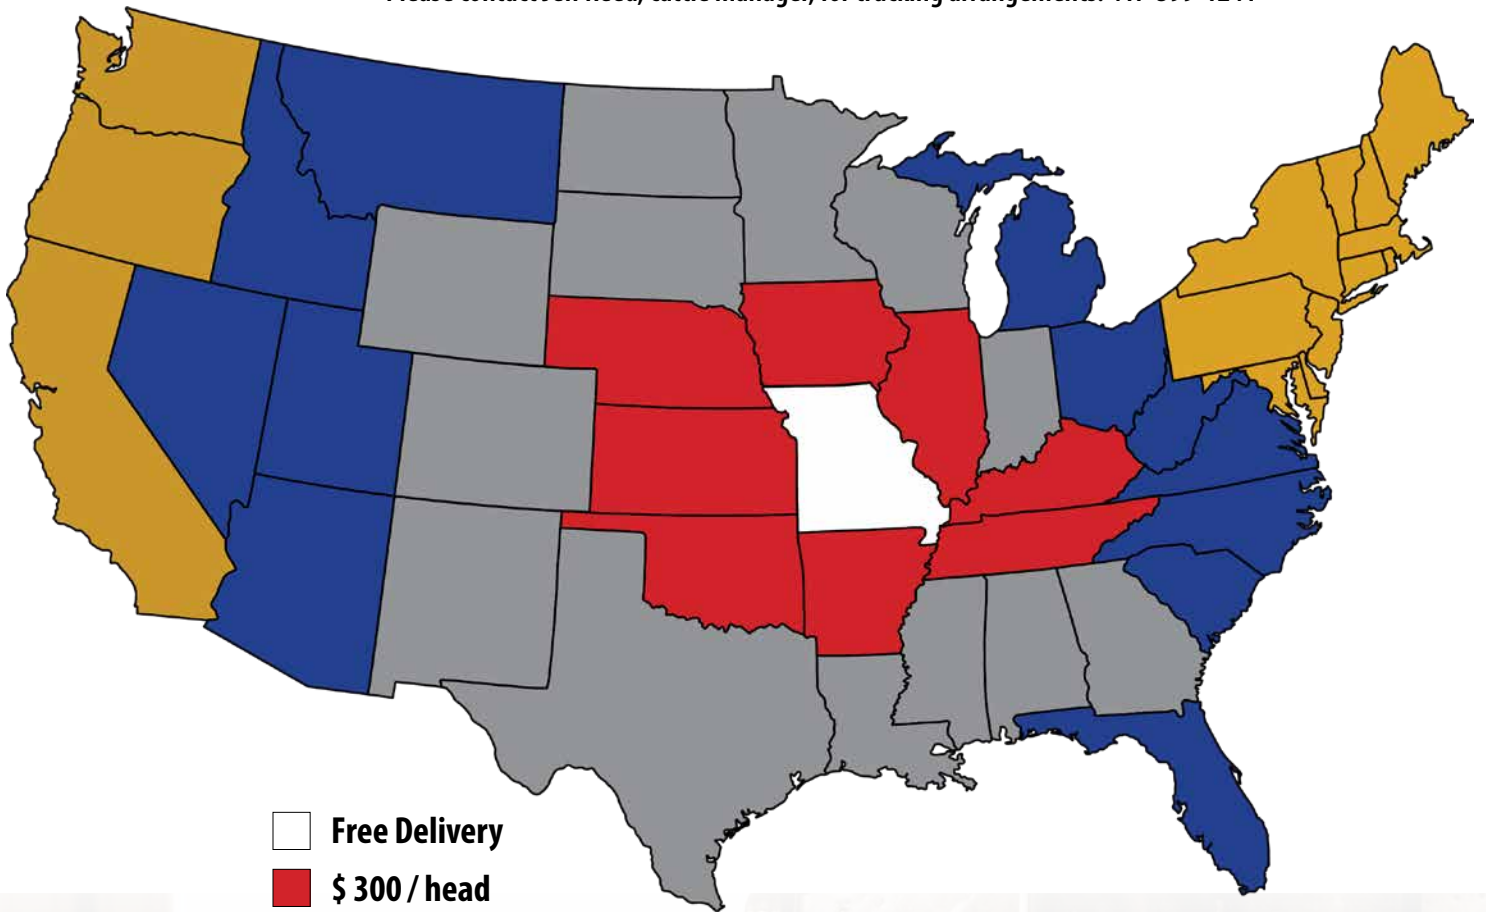

We honor Forrest Lucas not only for what he built, but for what he believed:
That agriculture is the heart of America—and cattlemen are its soul.

— The Lucas Cattle Company Family

Corey Wilkins, Allied Genetic Resources	256-590-2487
Jared Murnin, Allied Genetic Resources	406-321-1542

REGISTRATION AND UPDATED EPDs.

All cattle will be registered in the American Simmental Association. All EPDs are the most current BOLT at the time of printing conducted by IGS and the American Simmental Association. Please note that EPDs may change from the time the sale book is printed until registration papers are transferred.

BREEDING GUARANTEE.

We stand behind all of our bulls and want you to be satisfied, so let us know as soon as possible if there are any problems. Scrotal measurements are actual (not adjusted) as reported at the time of fertility exam, and will be listed on the supplement sheet on sale day. All of our bulls have passed a fertility soundness exam unless indicated on the sale block. All bulls are guaranteed breeding sound. Come with a standard 90 day breeding season guarantee at the onset of breeding season.

ANNOUNCEMENTS.

Announcements made sale day take precedence over printed material in the sale book or other printed material associated with the sale.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

FROM THE SALE MANAGER

Welcome to the 2025 Lucas Cattle Company Fall Bull Sale in Cross Timbers, MO. Lucas Cattle Company relentless pursuit of genetic advancement has resulted in one of the finest offerings of Sim Genetics you'll find anywhere in the country. From cover to cover, you'll find bulls with exceptional genetic potential, all well-suited to thrive in the fescue belt.

A prime example of Lucas Cattle Company commitment to genetic progress is their robust and aggressive embryo program. This year, the team at Lucas is proud to feature many sons of the great Sugar C4 & Louise Y534 donors. Along with a stellar group of bulls, we also offer females that will surely catch the attention of both commercial and registered breeders alike. The sale includes five outstanding open females, representing some of the most cutting-edge genetics available, as well as 40 commercial multi-generation Lucas Spring bred heifers.

Times have never been better for cattlemen across the country. Historic prices have been recorded for all classes of cattle throughout the summer. A smaller U.S. cowherd, combined with continued demand for beef, suggests that profitable times are ahead for the industry in the coming years. Furthermore, premiums have never been higher for producers who focus on superior genetics and robust health programs. If you're looking to enhance your genetic potential, a Circle L branded bull will elevate your program to new heights.

We hope you'll join us on October 4th in Cross Timbers, MO. The team at Lucas Cattle Company would be honored to earn your trust as a trusted seedstock source. Expect great hospitality and exceptional cattle. As always, if we can be of any assistance, please don't hesitate to reach out.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

CLARITY IS CASH

\$20+
MORE PER
CARCASS

74lb.
LIGHTER COWS

Today's industry pays big for heavy fat steers, but your pocketbook demands smaller cows. What to do?

The answer is clear, dependable data and the courage to bypass traditional straightbreeding.

Simmental-influenced cows are an average **74 lb. lighter** at maturity than Angus-sired counterparts.^a

Meanwhile, packers pay **\$20 to \$34 more** for SimAngus™ and Simmental-sired steers than English-sired calves.^b

Finally, raise efficient cows and high-performance calves. The proof is in the data – and the cash.

TRUE GRIT SIRE OF LOTS 30-34

We are always searching for the right Angus Bull to make the next generation of SimAngus bulls at the ranch. After seeing True Grit in stud, we felt like he was the right choice for an Angus bull and we are really pleased with the results. The cattle are complete and as fault free as they come. They supply ample calving ease, great growth and strong maternal and carcass traits. We feel the bulls are the "ranchers" kind who will move your program ahead on all fronts.

THE BEST TOOLS IN MY SHOP

People are keeping their cars longer than ever. They want those older cars to run smooth and strong, despite their age. Lucas Oil Products are created to solve or prevent common mechanical problems in all vehicles, meaning older cars can run like new.

Power and efficiency for the long road ahead.

LUCAS OIL

RESERVE SIRE OF LOTS 84-90

The Reserve progeny come to the forefront of the bull offering. The cattle provide ample calving ease, explosive growth, and undeniable balance and eye appeal. What makes us so excited for the Reserve progeny is that he offers a completely new genetic line of purebreds to our operation and customers. We lead off the sale book with some impressive flushes sired by Reserve, but the power and quality runs deep in this impressive sire group.

ESSENTIAL SIRE OF LOTS 91-97

Essential is proving to be a genetic superstar who rivals any bull in the business for the spread he offers from birth to yearling. The sons are wonderful structured, easy to look at, great for docility and will no doubt sire cattle who create premiums. These big framed slicked haired bulls are built to produce progeny who thrive in the fescue belt.

A black cow, likely a Friesian, stands in profile facing left in a field of straw. The cow has a dark coat and a white patch on its forehead. The background is a blurred field of straw and trees. A small inset image in the bottom left corner shows a close-up of the cow's head and neck.

LUCAS CATTLE COMPANY COMMERCIAL BRED HEIFERS

41 COMMERCIAL FALL CALVING BRED HEIFERS

Black hided, ranch raised Lucas bred heifers for multiple generations. Females will be sorted into groups of like kind and estimated calving date. AI bred females will be due mid-January, and natural service females will be due late January to mid-March. Look for more information closer to the sale.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$indexes, visit: www.simmental.org

LUCAS

PERFORMANCE HORSES

A TRADITION OF EXCELLENCE.

Following in the tradition of Lucas Oil Products and Lucas Cattle Company, Forrest and Charlotte Lucas are proud to announce Lucas Performance Horses.

Forrest and Charlotte Lucas are not strangers to excellence. They brought the nation some of the finest oil products on the market. Over the last 25 years, the Lucas family and Lucas Cattle Company have also curated a large and successful herd of SimAngus and Simmental Cattle. With these same goals in mind, Lucas Performance Horses is committed to breeding high quality performance horses for the cutting, reined cow horse, and ranch horse markets.
